

TECHNICAL DATA SHEET

JOKISCH FOSIA CLEAN CITRO (Jokisch Citro Clean)

High performance degreaser for all areas in industry and crafts.

APPLICATION

In today's world, cleaning problems in industry and crafts are increasingly being solved with special cleaners designed exclusively for a single solution.

The Jokisch **Fosia Clean Citro** has been developed to clean organic substances (oils, fats) as well as synthetic substances (resins, waxes, adhesive residues, PU, paint mist or bitumen).

CHARACTERISTICS

- Removes oils, greases, adhesives and polyurethane residues
- Tar, lubricants, graffiti, resins, rubber residue, paint, abrasiv strips
- Short cleaning times through high dissolving properties.
- Optimum cleaning effect down to -30°C.
- Special additives cause rapid drying of the treated surfaces
- Enviromentally friendly – based on natural extracts won from citrus- and orange peel
- PH-neutral and 100% bio degradable
- Particularly suitable for the degreasing of aluminium parts

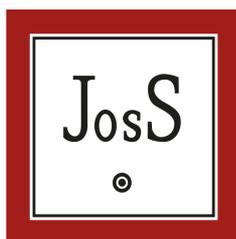

HANDLING

Apply to the soiling surface and work with a cloth or brush.

Wipe after a short reaction time. For heavy soiling, repeat the cleaning process. We recommend a compatibility test on the surface to be cleaned.

STORAGE

Storage temperature: 5 – 40° C
Storage time: 12 months
