

# B.R.X. 648

High-performance cleaner

## The benefits at a glance

- Powerful
- Ready to use
- Soluble in water
- Non-VOC
- Phosphate-free

### Properties

**Rivolta B.R.X. 648** is a high performance cleaner ready for use which has been developed for the removal of especially tenacious contaminations. **B.R.X. 648** is characterized by a very good dissolving and cleaning effect against paints, lacquers, caked greases, cracked oils, resin and other hard to remove residues. **B.R.X. 648** is ready for use, but can be diluted with up to 10 parts of water for individual applications. The mixing ratio depends on the type and degree of contamination and the cleaning procedure. **B.R.X. 648** contains corrosion inhibitors. Shiny metal parts are short-term protected against rust film after the cleaning.

### Fields of application

**Rivolta B.R.X. 648** is especially in industries where resin, paints and lacquers are processed.

<b>Form</b>	liquid
<b>Colour</b>	light brown
<b>Odour</b>	characteristic

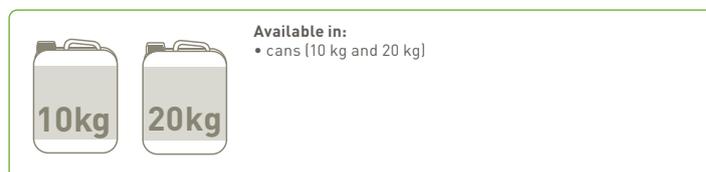

### Material compatibility

- Behaves neutrally to copper, ferrous metals and ceramics
- For painted parts, plastics and elastomer materials please test the applicability before use
- Not suitable for aluminium, non-ferrous, zinc and zinc-coated items

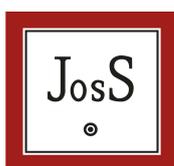

### Instructions for use

**Rivolta B.R.X. 648** is suitable for the application by immersion or manual wiping and can be removed without residues by a subsequent flushing with water. A prior heating up to +60 °C increases the cleaning effect.

Suitable application devices and accessories in our [accessories brochure](#).

	Value	Norm
<b>Density at +15 °C</b>	1,12 g/cm <sup>3</sup>	DIN 51757
<b>pH-value undiluted at +20 °C</b>	14	DIN 19268
