

B.W.K.

Water-based power cleaner

The benefits at a glance

- NSF-A1 registered
- Removes persistent dirt
- Biodegradable*
- Ready to use
- Not subject to labelling under CLP
- Free of dyes, fragrances and preservatives
- Solvent-free
- Versatile

Properties

Rivolta B.W.K. is a ready-to-use and biodegradable* cleaning agent to remove persistent dirt from water resistant surfaces.

Our product is solvent-free and based on a combination of highly effective and modern substances. **B.W.K.** distinguishes itself by its good solvent characteristics for lubricants and pastes, oils, wax and bitumen residues and processing fluids that are difficult to remove.

Fields of application

Rivolta B.W.K. applies equally throughout the industry, in workshops, craft and commercial enterprises to clean machinery, workshop equipment, washable walls, painted surfaces, all highly polished, shiny surfaces as well as plastics and many more. Because of the NSF-A1 registration **B.W.K.** is the ideal product for cleaning tasks in all sectors of the food industry.

To remove:

- oils
- pastes
- greases
- wax residues
- processing fluids
- etc.

Form	liquid
Colour	transparent
Odour	characteristic

Material compatibility

Due to its very good material compatibility **Rivolta B.W.K.** cleans gently and effectively a wide variety of surfaces, such as stainless steel, aluminum, chrome, ceramics, plastics and rubber.

Instructions for use

Please spray **Rivolta B.W.K.** onto the contamination, allow it to act briefly and then pick up with an absorbent cloth. If necessary, rinse with clear water.

Suitable application devices and accessories in our [accessories brochure](#).

Storage instructions

Rivolta B.W.K. should be stored at temperatures between +10 °C to +20 °C. At higher temperatures (approx. +30 °C) the liquid can turn slightly cloudy. This is reversible and does not affect the quality, stability or cleaning power of **B.W.K.**.

	Value	Norm
NSF Reg.-No.	155465	-
Density at +15 °C	1,02 g/cm ³	DIN 51757
pH-Value at +20 °C	10,6	DIN 19268

* All surfactants in this product are considered to be biodegradable as they meet all legal requirements regarding biodegradability (according to german WRMG). Additionally, all organic ingredients are classed as readily biodegradable according to OECD 301 (inorganic ingredients, that are not subject to biodegradability, like water, are not taken into account).
