

E.S.E. 340

Defoamer for waterbased systems

The benefits at a glance

- Very economical
- Effective
- Silicon free

Properties

Rivolta E.S.E. 340 is suitable to destroy or prevent foaming in water-based cleaning systems. It is efficient against foams which are caused by anionic, nonionic or mixtures of tensides. On top of this hydrous systems which are e.g. charged by metal soaps are defoamed effectively.

E.S.E. 340 is a defoamer emulsion for water-based cleaners, free of silicones.

Form	liquid
Colour	white
Odour	weak

Dosage

The dosage of **Rivolta E.S.E. 340** depends on the system which is to be defoamed. The necessary quantity should be checked for each system individually.

Recommendations for the dosage

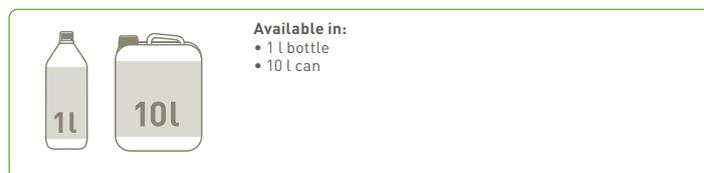

Defoamer

Mixture ratio

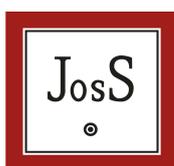

- Cleaner : Water = 1:200 - 1:20 0,01 %
- Cleaner : Water = 1:20 - 1:1 0,1 %

Instructions for use

Suitable application devices and accessories in our [accessories brochure](#).
