

S.K.A.

Special mould cleaner

The benefits at a glance

- NSF-A1 registered
- Penetrates and dissolves a multitude of plastics and elastomers
- Applicable on polished surfaces

Properties

Rivolta S.K.A. is a user-friendly mould cleaner for the removal of residues on tools and moulds that arise from plastic processing.

According to its innovative chemical composition **S.K.A.** is NSF-A1 registered, which enables the use for cleaning applications in particularly sensitive areas, e.g. the food, drinks and pharmaceutical industries.

Fields of applications

Rivolta S.K.A. is used to clean moulds and tools at injection moulding machines, flat film extrusion lines, blown film extrusion lines, spinning plants and extrusion plants. **S.K.A.** penetrates and removes a large number of thermoplastics and elastomers from metallic surfaces.

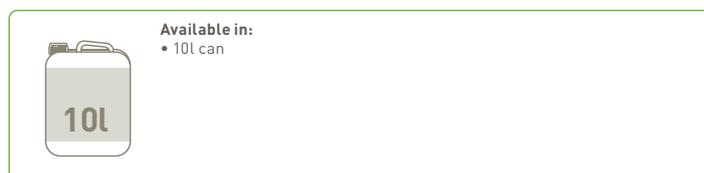

Material compatibility

Rivolta S.K.A. attacks plastics, elastomers, paints and lacquers. Metallic surfaces are **not** attacked!

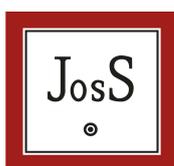

Instructions for use

Spray **Rivolta S.K.A.** onto the parts which need to be cleaned. The exposure time depends on the layer thickness of the residues. For the complete removal e.g. in cavities we recommend to use our rapid cleaner **Rivolta A.C.S. 3 Spray** in addition. For the processing of **S.K.A.** we recommend our **BL 0,5l Hand sprayer universal** (Article number: 800185006). Suitable application devices and accessories in our [accessories brochure](#).

Form	liquid
Colour	colourless
Odour	characteristic

	Value	Norm
NSF Reg.-No.	158635	-
Density at +20 °C	1,03 g/cm ³	DIN 51757
Flammpunkt	+76 °C	DIN EN ISO 2719
